**THE PEOPLE’S FORUM**

**God, Send Us Men!**

We need new men, brave and skillful, to take the place of the old men and women who have fallen on the battlefield for our freedom. We need men who will stand up and fight for the rights of all people, and who will not be afraid to speak out against injustice. We need men who will lead us to victory, and who will never give up until we have achieved our goals.

The time for action is now. We cannot afford to wait any longer. We must act now, and we must act together. Only then can we hope to achieve the freedom and justice that we all deserve.

**THE POLICY OF IMPERIALISM**

**The Negro World:**

The policy of the United States government is one of imperialism. This policy is based on the belief that the United States has a right to control and dominate other nations. This policy has led to many conflicts and wars, and has caused great suffering and destruction.

We must speak out against this policy. We must work to end imperialism, and to create a world where all nations can live in peace and harmony. Only then can we hope to achieve the freedom and justice that we all deserve.

**INDIA SPEAKS — THE WORLD HEARS**

India has issued a statement denouncing the policies of the United States government. India is a democratic nation, and it is committed to the principles of self-determination and non-interference. India is a friend to all nations, and it will not allow itself to be used as a pawn in the hands of those who seek to control other nations. India is a strong and independent nation, and it will not be intimidated by the threats of those who seek to destroy its sovereignty.

We must support the people of India in their fight for freedom and justice. We must work to end imperialism, and to create a world where all nations can live in peace and harmony. Only then can we hope to achieve the freedom and justice that we all deserve.

---

**THE LAW HEARS ITS DEAD IN TEXAS**

The state of Texas has passed a law that will make it easier for police to use deadly force. This law is a clear violation of the Fourth Amendment to the United States Constitution, which protects against unreasonable searches and seizures. This law is a clear violation of the principles of justice and fairness that are at the core of our democracy.

We must speak out against this law. We must work to end the use of deadly force by police, and to ensure that all Americans are protected by the law. Only then can we hope to achieve the freedom and justice that we all deserve.

---

**EDITORIAL OPINIONS OF THE NEGRO PRESS**

**THE WAY THE WORLD LOOKS**

The world is changing, and the way we look at things is changing as well. We must be willing to adapt to these changes, and to work together to create a better future for all.

---

**SHADY REST**

The recent decision by the Supreme Court to strike down the Voting Rights Act is a clear example of the ways in which the United States government is working to undermine the rights of all Americans. This decision is a clear violation of the principles of justice and fairness that are at the core of our democracy.

We must speak out against this decision. We must work to end the discrimination and oppression that is still rampant in our society. Only then can we hope to achieve the freedom and justice that we all deserve.
