Do You Believe in Garveyism?

Mr. BLAKEY believes in Garveyism, do you believe in Garveyism?
Do you know that a very elementary principle that you can see from your source and not from your conscience is to do you? Do you know that Marcus Garvey has done a thousand times more than all the Tray People together? He has not only made the black man aware of himself; he has told him what he is and what he can become.

"It is a golden opportunity," Mr. Black man, for whose liberation the Nation is fighting, should read the case for YOURSELF, or it is not fighting the case for you. The Garveyism is putting up the case for you better than the best man who ever made a speech for you.

"Marcus Garvey has a better case than ever any other man has. He has a better case than even the white man. He has a better case than the white man. He has a better case than any man in Africa. He has a better case than any man in the world. He is the only man in the world who can make the black man feel that he is a man.

"Marcus Garvey is the only man in the world who can make the black man feel that he is a man. He is the only man in the world who can make the black man feel that he is a man. He is the only man in the world who can make the black man feel that he is a man."
